

Application Form

for a loan under the Belarus Sustainable Energy Finance Facility of EBRD

The European Bank for Reconstruction and Development ("the EBRD") has launched the Belarus Sustainable Energy Finance Facility ("the BelSEFF"), which, in cooperation with local participating banks, provides loans for implementation of energy saving measures to improve energy efficiency of Belarusian industrial and commercial real estate sectors, for increasing the use of renewable energy and for supporting local suppliers of energy efficiency technologies.

A Consortium of Czech companies KPMG Česká republika, s.r.o. and ENVIROS, s.r.o. ("the Project Consultant") has been assigned by EBRD to implement the BelSEFF through various tasks, which include, among other things, identifying eligible projects on the market and providing a free of charge technical assistance to potential borrowers. Such assistance is provided to the potential borrowers through developing Energy Efficiency Assessment and/or Rational Energy Utilization Plans and advising the borrowers on identification of the most appropriate energy efficiency investments.

We shall treat all the information provided in this application as strictly private and confidential and we will use it solely for the purposes of the BelSEFF implementation and not for any other purpose. No confidential information will be disclosed to any third parties except representatives of EBRD, local participating banks, companies of the Project Consultant, their partners, directors and employees, who need to know the confidential information in relation to BelSEFF, or in case when the disclosure is required by law, regulation or professional standards to which the listed parties are bound to comply.

THE INFORMATION ABOUT THE PERSPECTIVE BORROWER
Name of the Company:
Legal Status:
<input type="checkbox"/> private sector companies
<input type="checkbox"/> public sector companies (i.e. majority owned by the state or any other entity controlled by the state)
ID Number:
Contact Person:
Position:
Address:
Tel.:
Fax:
E-mail:
Description of business activities:
Did you already discuss your investment plan with BelSEFF team or a bank? (if yes, please specify contact person and date):

POTENTIAL PROJECT
Project location:
Type of potential project:
<input type="checkbox"/> Industry and commercial buildings investments (please tick also specific sector on page 4)
<input type="checkbox"/> Investments into a commercial industry sector, i.e. in existing operations involving production, distribution and sale of goods, delivering services and performing works for the purposes of getting profit or achieving other commercial benefits.
<input type="checkbox"/> Investments into a commercial real estate, i.e. in existing real estate that is used for commercial purposes. Types can include office buildings, warehouses, or retail (i.e. convenience stores, shopping malls, etc.).
<input type="checkbox"/> Investments into new stand-alone small scale renewable energy projects (please tick also specific sector on page 5) Projects involving utilization of wind and hydro energy for electricity generation, utilization of biomass for heat production and/or electricity generation, production of biogas for gas supply or heat production and/or electricity generation, utilization of geothermal energy, utilization of solar thermal energy and solar energy for electricity generation.
<input type="checkbox"/> Loans for "Energy Efficiency Suppliers" (please tick also specific sector on page 5) This category encompasses supply capacity enhancement, i.e. financing of eligible manufacturers, suppliers and installers of energy efficiency and renewable energy technology, equipment, materials, as well as working capital financing to finance raw materials or intermediate goods for a specific production order for manufacturing eligible energy efficiency or renewable energy equipment
Brief description of the project:

DETAILS OF THE POTENTIAL PROJECT (where available)		
Expected total investment cost, net of VAT, US Dollars:		
Proposed sources of financing:	USD	%
<input type="checkbox"/> Internal sources		
<input type="checkbox"/> Loan under BeISEFF– expected loan amount		
<input type="checkbox"/> Yes, we are interested in getting free of charge technical assistance of the BeISEFF Project Consultant to identify and analyze the investment project		
<input type="checkbox"/> Other sources		
Indicate the other sources:		
Expected beginning of investment (month/year):		
Expected period of implementation (months):		

ENERGY EFFICIENCY PROJECT							
Annual consumption from external sources							
	Electricity		Heat		Fossil Fuels (gas, coal, oil, other)		Other financial benefits *
	MWh	th. USD	GJ	th. USD	GJ/th.m ³	th. USD	th. USD
Current level							
After the project							
* - saving of maintenance costs, labour costs, indirect financial benefits							
RENEWABLE ENERGY PROJECT							
Expected energy generation from renewable							
Electricity (MWh)		Heat (GJ)			Biogas (GJ/th.m ³)

Date:		Signature:	_____ /STAMP/

Annex 1 – INTENDED ENERGY SAVING MEASURES (Please, tick):

Industry and Commercial Buildings	
<input type="checkbox"/> Combined heat and power or tri-generation of heat, electricity and cooling	<input type="checkbox"/> Stairway (common) windows and/or glass walls replacement
<input type="checkbox"/> Replacement or modernization of energy-intensive process equipment (furnaces, ovens, dryers, heat treatment equipment, presses, etc.)	<input type="checkbox"/> Windows replacement
	<input type="checkbox"/> Entrance doors replacement
	<input type="checkbox"/> Walls insulation
	<input type="checkbox"/> Roof insulation
	<input type="checkbox"/> Basement ceiling insulation
	<input type="checkbox"/> Inner walls insulation
<input type="checkbox"/> Industrial scale heat pumps and efficient cooling installations	<input type="checkbox"/> Installation of efficient boilers, micro-cogeneration
	<input type="checkbox"/> Boiler room reconstruction
<input type="checkbox"/> Upgrade/replacement of utility systems	<input type="checkbox"/> Installation/reconstruction of heat transfer stations
<input type="checkbox"/> Heat and condensate recovery	<input type="checkbox"/> Heat meters installation
<input type="checkbox"/> Automation and control for processes and utilities	<input type="checkbox"/> Balancing of heating systems
<input type="checkbox"/> Technology process optimization	<input type="checkbox"/> Individual heat consumption control system
<input type="checkbox"/> Utility building insulation measures	<input type="checkbox"/> Installation of new radiators
<input type="checkbox"/> Fuel switching	<input type="checkbox"/> Urban renewable energy systems
<input type="checkbox"/> Other, please describe:	
<i>Comments:</i>	

Stand-alone renewable energy projects	
<input type="checkbox"/> Construction/reconstruction of small hydro power plant up to 5 MW	<input type="checkbox"/> Construction/reconstruction of solar thermal systems up to 0.5 MW
<input type="checkbox"/> Wind mills or wind park with the capacity up to 10 MW	<input type="checkbox"/> Construction/reconstruction of biomass energy - heat production/electricity generation up to 50 MW
<input type="checkbox"/> Geothermal energy utilization	<input type="checkbox"/> Biogas production and utilization
<input type="checkbox"/> Utilization of solar energy for electricity generation with the capacity up to 1 MW	<input type="checkbox"/> Other, please describe ...
<i>Comments:</i>	

Energy Efficiency Suppliers
<input type="checkbox"/> Capital investments Please, describe the equipment or technologies to be produced
<input type="checkbox"/> Working capital financing to finance raw materials/intermediate goods Please, name the production order for which the financing is required
<i>Comments:</i>

THANK YOU FOR FILLING IN THE APPLICATION FORM.

WE WILL CONTACT YOU AT THE CONTACT DETAILS PROVIDED TO CLARIFY THE POINTS INDICATED IN THE APPLICATION FORM AND TO PLAN FURTHER ACTIVITIES TO PURSUE THE PROPOSED PROJECT.
